HOME THEATRE

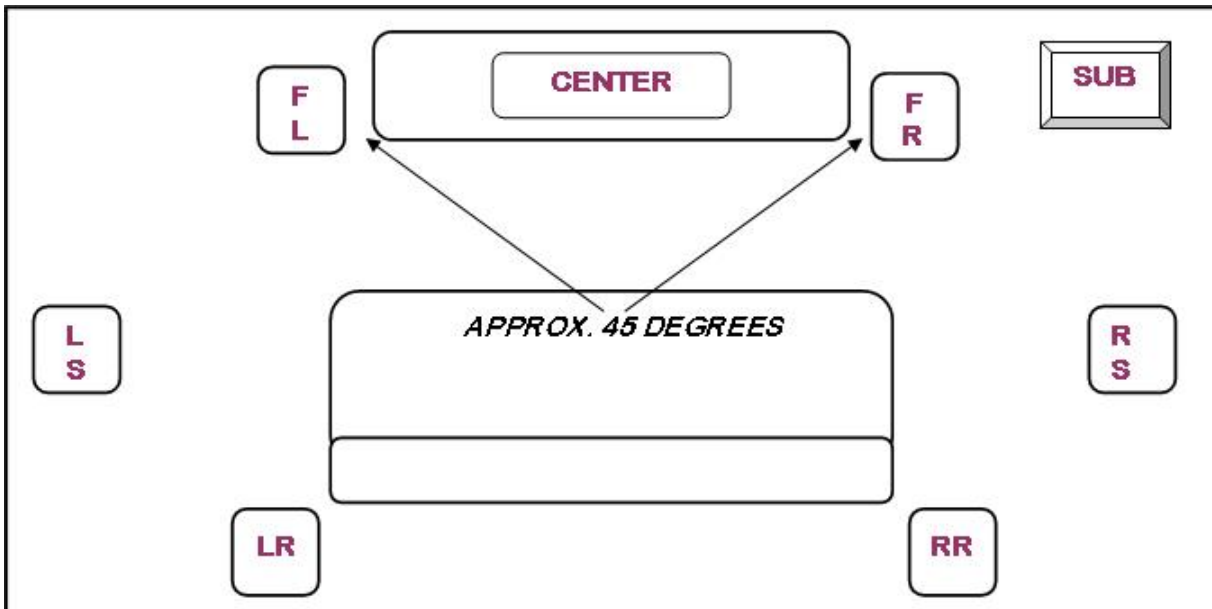

Specify your job and send to SES for quote

Date: _____ Account number: _____ Contact: _____

Company name: _____ Phone: _____ Rep: _____

Please use the following diagram of Home Theatre speaker placement suggestions as a guide for best speaker placement.

- Left, Center and Right speakers should be at ear level.
- Rear and side speakers should be at ear level

Room Dimensions:

Width _____ (wall that FLAT screen* is centered on) Length _____ Ceiling height _____

**If the FLAT screen is corner mounted, measure the wall left of the screen.*

Front Left (FL) & (FR) Speakers:

In-Wall _____ Wall Mount _____ Bookshelf _____ Tower _____ Other _____

Mount equal distance from center approx. 45 degrees apart, about ear level.

Center Channel:

In-Wall _____ Wall Mount _____ Bookshelf _____ Other _____

Mount right above or below the screen, as close to the same level of the Left (L) and Right(R) speakers as possible.

Rear (LR – RR) and Side (LS – RS) Surround Speakers:

In-Wall _____ Wall Mount _____ Bookshelf _____ Tower _____ Ceiling _____

Mount 2-3' above ear level, if ceiling mount is used, mount just behind listening area.

Sub-woofer: Powered ___ **Receiver:** _____

For best results, a **powered sub** should be used. Sub-woofer should be in the corner on the floor.

Additional Comments: _____
