

## Offer your customers the new Wi-Ex cell phone signal booster!

A recent Harris Interactive Poll tells us over 65% of buildings in the US have difficulty getting reliable cell phone coverage indoors. This is the perfect time to introduce the **Wi-Ex YX710PCSCCEL** cell phone signal booster to your clientele, perhaps the homeowner you just installed a central vacuum system for or the businessman you recently installed a CCTV system for.

The Wi-Ex YX710PCSCCEL, which is only available to professional installers, is a great way to add Recurring Monthly Revenue (RMR) to your business model. Earn regular monthly income from the YX710PCSCCEL with little to no additional work on your part!

Other benefits include:

- zBoost YX710PCSCCEL model improves all 6 PCS sub-bands and both Cellular sub-bands
- Increases your indoor cell signal coverage – up to 10,000 sq feet
- Decreases dropped or missed calls
- Enhances the performance of your cell phone, smartphone and wireless data card
- Extends phone battery life (uses less power when signal is stronger)
- Works with all phones and U.S. carriers (except Nextel/iDEN)
- Maintains network integrity using patent-pending technologies
- Manufactured with the highest quality control – (individually calibrated)

Give us a call today to see how you can benefit from adding the Wi-Ex YX710PCSCCEL to your offerings!

YX710PCSCCEL
